· MARCHING ON.

There was a lively if not a very important session of the Lexow Commit tee yesterday, and the learned Senators. as well as the highly seasoned counsel med disposed to relieve the oppresalveness of the weather by a little light and airy persiflage.

Mr. Goff had a witness in reserve who was expected to make a sensation. He was a policeman with a good record and force & sufficient number of years to entitle him to retirement on a pension, and so, as the counsel puts it, can snap his fingers at persecution." THE GREAT SAENGERFEST.

Great will be the honor paid by the American metropolis to-morrow and the two succeeding days to the National Saengerfest on the occasion of its glorious song festival, and well will the nonor be deserved.

A people devoted to music and song are a people to be trusted. Where is to be found a deeper incentive to patriotism, where a more persuasive exhortation to tenderness and love, where a more reliable indication of gentleness, honor and integrity? Says Ruskin, "All good police rule which works both ways. great song, from the first day when man lips contrived syllables, has been sincere song." United States, the Governor of the State and the Mayor of the city should unite in showing respect for the great song festival and should grace the occasion of the opening torchlight parad with their presence. The sight will be well worth seeing, as the mon-ster concerts in Madison Square Garden during the festival will be richly worth hearing. The singers invited number ten thousand, and they include the most famous artists of the day and nearly all the celebrated associations and sculption in the Union. With such names as Materns, Emma Juch, Lillian Blauvelt Tavary, Maud Powell, Campanari, Freti Fischer, Behrens Herbert and Freidhelm the New York people are familiar. It is expected that six thousand memrs of the societies will pass under the triumphal arch at Madison Square on

SOME MISPLACED BLESSINGS.

There was a tornado in South Dakota yesterday and a wind storm in Faribault, Minn., that blew a circus tent to smithereens. Here there wasn't enough breeze to fill a goatee and the anemometers fairly gasped for breath. We would have given anything for a little Borean blast or two last night and would have freely forgiven a cyclone if it had rushed in on us and

ripped the sizzling backs off of things. Twas ever thus. There is plenty of comfort and joy in this world, but some people seem to get it all, while the rest of us simply look on and wonder why. Usually it is the people who don't need land each bring about equal returns-about \$30, it who get it, too. Now, that South Da-kota tornado would have done us a A school of flying fish was recently observed on great deal of good if we had had it here the Rappahannock River. It is really a pity that the world's blessings cannot be more equally dis-tributed. See what a difference there was last night between the men who set on Ramapo to win the Suburban we who didn't. If we all had to enough to pick Ramapo, how

Her freakishness Previously acknowledged bore the marks of studied effort. She is Visitors to Dome, Pulitzer Building natural criminal, a cruel and crafty destroyer of human life. There will be no injustice in inflicting upon her the law's full penalty.

That same young Mr. Sulzer who once proclaimed his knowledge of what the New York State Senate would do with the New York City reform bills has just couldn't resist the temptation to inject by his pupils for the benefit of the a little Tammany politics. He did it by sneering at the Lexow Committee. Then he experienced an immediate and decided "frost." This was another time when Mr. Sulzer thought he knew, but didn't know. As might have been expected the breathing spell allowed to the Brockway forces between investigations was utilized as a time for impressing important witnesses with an idea of their indiscretion in giving testimony against the plain words, the opportunity has been mates. Nevertheless, the truth as to the brutality practised in the name of reform comes out as plainly on the second recently gave Officer Taylor, one of cumulated mistakes of acting Gov. sergeants, ten dollars out of this Flower, that of showing misplaced leniency to Brockway and his obedient more conspicuous as the inquiry goes on.

Justice Divver's memory, once wholly lost, would never be found. Who can tell where it might wander during an all-Summer recess of the Lexow Committee?

If you want the law enforced, pay the policeman. If you want to violate the law, pay the policeman. It must be a good police rule which works both ways.

Priscilla's trial trip exhibited the handsome new Sound boat as in every way creditable to the "trim, little Puritan maiden" who is her namesake.

Police Justice Divver is apparently profiting by the confessions of Civil Justice Roesch. He is not rushing to the law and mean the rose, and danced the Carnival of Venice, with variations and lightning-like time.

Then came an intermission, and the sick babies had their turn. Prof. Lawrence came to the footlights and said.

"Ladies and Gentiemen: Our annual collection for the benefit of The Evening World' Sick Babies' Fund will now be made," and with a magnificent bow he disappeared.

Then Miss Goodnough, in her jockey suit, came out, took off her cap to the audience and passed it round. She is as protty as a rose, she has laughing blue eyes that never quit smiling, and the moment she looked at an individual a contribution responded. When her small cap was full of money little Flo Perry and little Ruth Lewinson gave a scene from "School for Scandal."
